

Cinnamon Essential Oil

DESCRIPTION

Cinnamon Bark oil is derived a tree growing approximately 45 feet in height with a very thin, smooth textured bark. This tree gives off a strong yet pleasant aroma making the oil extracted from the bark a popular scent. There are twelve different species of cinnamon tree. Only a few of them are used in the production of cinnamon spice.

This oil has a stimulating effect to awaken our many senses and has been thought to help aid in increasing blood flow, stimulate appetite, reduce gas and help to eliminate muscle spasms.
