

Hemp Seed

DESCRIPTION

Hemp Seed oil does not contain THC and should not be confused with hash oil or cannabis oil. It does however have a great ratio of omega fatty acids, proteins and vitamins which can soothe and nourish damaged and dry skin.

DETAILS

Botanical Name: Cannabis sativa

Extraction Method: Cold Pressed

Aroma: Unrefined Hemp Seed oil retains all its natural qualities and nutrients. This causes the oil to have a more natural nutty color and fragrance.

THERAPEUTIC PROPERTIES

Hemp Seed oil is popularly used to help relieve inflammation and reduce swelling in sore muscles and tendons.

SAFETY, STORAGE AND SHELF LIFE

There are no known safety concerns.

Shelf Life: 2 years from production date; store out of direct sunlight in cool temperatures. Refrigeration after opening is recommended.

We have some additional information about [essential oil storage](#) on our blog.
