

Orange Essential Oil

DESCRIPTION

Oranges naturally contain a high amount of vitamin C. In ancient Chinese medicine, oranges have been used to treat common colds and coughs. Today orange essential oil is a popular oil to diffuse aromatically, improving mental stability by creating a calming, joyous environment, relieving built up stress, and used by some to help fight depression.

Orange oil is often used in the kitchen providing an environmentally safe cleaning method as well as being commonly used to repel ants. The orange scent erases the ant's scent-pheromone trail.

DETAILS

Origin: Brazil

Plant part: Fruit Peel

Botanical Name: Citrus sinensis

Extraction method: Cold Pressed

Blends With: [Bergamot](#), [Lemon](#), [Clary Sage](#), [Nutmeg](#), [Cinnamon Bark](#), and [Clove Bud](#).

Aroma: Has a sweet, citrus smell, reminiscent of the orange peels from which it is derived, but more concentrated.
